High Schools Enter Debate Meet Here

Nearly 100 students representing 10 or 12 schools will attend the High School Debate clinic on the campus December 6-7. Six schools have already signed for the clinic sponsored by Tau Kappa Alpha, forensic honorary, Ralph Y. McGinnis, instructor in speech and director of the State High School Debate league, announced yesterday.

The practice tournament will consist of four rounds practice debating, lectures and demonstrations on debating technique, logical reasoning and debate strategy.

"Resolved, that powers of the federal government should be increased" is the question that will be debated. Varsity debate squad members will act as judges for the clinic. No decisions will be made, but criticisms will be prepared by the judges.

Glen Nelson and Garvin Shallenberger, both of Missoula, and Walter Niemi, Butte, will aid McGinnis in making arrangements for the clinic.

Schools already entered are Big Fork, Thompson Falls, Flathead County, Missoula, Beaverhead County and Gallatin County.

Forestry Shows Enrollment Drop

Forestry students enrolled this year total 73 less than in 1939, accounting for nearly 50 per cent of the university enrollment decrease from 2,015 students on November 1, 1939, to 1,865 students on November 1 of this year.

Although feminine ranks have decreased by 96 and men only by 54, the university ratio of three men to two women is maintained.

The music school is the only major department which shows an increase in students, gaining nine over the 1939 total. All other major departments, with the exception of the School of Pharmacy, show a decrease. The pharmacy school held its enrollment figure at 52.

EDUCATION COUNCIL ISSUES BULLETIN

Mimeographed copies of a bulletin, issued recently by the American Council on Education, Washington, D. C., on selective service, are being sent to faculty members. Students affected by the act may consult the faculty regarding deferment or other provisions of the law. Dr. J. W. Severy, vice-president, will have more detailed information later regarding the act.

Weekly Music Recital Today

The weekly music school student recital featuring piano and voice selections will start at 5 o'clock today in Main hall auditorium.

Piano artists will include Jean Campbell, Missoula, playing Schumann's "Traumerei and Romance" and Gail Rounce, Sidney, playing Mozart's "Concerto in A Major," first movement.

Ruth Harrison, Deer Lodge, will sing "My Mother Bids Me Bind My Hair" by Haydn, and Clide Carr will sing "I Love Thee" by Grieg.

Lecturer

Mrs. Margaret H. Kaiser, author and lecturer, will speak on the subject, "The Sober View of Europe," at a special convocation Tuesday.

Margaret Kaiser To Talk Before Convo Tuesday

Margaret H. Kaiser, lecturer, author and journalist, will speak before a special convocation Tuesday, Andrew Cogswell, chairman of the public exercises committee, announced yesterday.

Mrs. Kaiser, a former resident of Germany but now residing permanently in this country, will talk on "The Sober View of Europe." Last Tuesday night she spoke before the American Association of University Women.

The author's career has varied from a position with the German government to writing articles on marriage and motherhood. It includes work as an economist, author-politician, publisher, lecturer and social worker.

She has written numerous books and articles, founded a magazine for women, started two women's clubs and was, from 1926 to 1928, a member of the German Governmental Industries Research committee in charge of publications.

Classes will be shortened for the program, which will begin at 11 o'clock.

Catholics Will End Membership Push

Newman club will close its fall-quarter membership drive at the monthly communion breakfast after the 10 o'clock mass Sunday, Al Schmitz, Brockton, president, said yesterday.

Those on the membership drive committee are listed below:

Katherine Kelly, Anaconda; Carol Bauer, Missoula; Rose Marie Bourdeau, Missoula; Pat McHale, Shelby; Dorothy Kushar, Stockett; Margaret Anne McDonnell, Polson; Bob Plummer, Missoula; John Jackson, Plentywood; Eileen Deegan, Big Timber; Joe Ballas, Missoula; Alve Thomas, Butte; Jean Krebsback, Missoula; Ed Novis, Anaconda; Kenny O'Brien, Bigfork; Mary Leary, Burke, Idaho; Bob Felt, Billings; Prudence Clapp, Missoula; Walt Martin, Miles City; Josephine Bugli, Missoula; Ben Wahle, Helena; Harry Corry, Billings, and Jack Britton, Bozeman.

NOTICE

There will be a meeting of editorial and business staffs of Sluice Box this afternoon at 4 o'clock in room 203, Journalism building.

Thesis Read At Phi Sigma Meeting

Too much of the average college career is taken up in overcoming erroneous conceptions of scientific knowledge which were gained in high school, Mary Beth Clapp, M.A. '38, claimed in her thesis "What's Wrong With High School Science Teaching," which was presented at a meeting of Phi Sigma, national biological honorary, last night.

High school courses try to cover too much ground and make no attempt to tie science up with the practical problems of everyday life, Miss Clapp said. They teach many things, but none of them well. The value of scientific training is therefore lost to most high school graduates, who know just enough to depend on half-way, teleological reasoning. One well planned, thoroughly conducted laboratory project would be of more value than many lectures which only touch the surface.

Millard E. Peterson, M.A. '39, biology instructor at Missoula County High school, answered Miss Clapp's accusations against high school teaching.

Recognizing many shortcomings in the system, Mr. Peterson said, "The greatest problems in teaching high school classes are the teacher's lack of time, and the fact that they have to teach students with I. Q.'s ranging from 75 to 140 in the same class."

Much has been done in recent years to overcome these objections. Progress depends, more or less, on the ability of the individual teacher. High school curriculums of today are better planned than they were a few years ago, he said.

Frosh Women Win Over Upperclass

The freshman hockey team defeated the junior-senior team, 1-0, in the first game of the interclass hockey tournament yesterday afternoon by virtue of a referee's decision.

The teams were evenly matched and the goal was only threatened a few times. Shelda Long, Missoula, freshman, made the score for the freshman team.

Monday afternoon at 5 o'clock the freshmen will meet the sophomore team for the second game. A contest between the sophomores and junior-senior team Tuesday at 4 o'clock will end the tournament.

NOTICE

Majors in economics and sociology will meet at 11 o'clock tomorrow in room 212, Craig hall.

Rotary Group Plans Contest

The Rotary club will sponsor an amateur contest in the Gold room Dec. 4, John Lester, professor of voice, said yesterday. Students or townspeople having talent or ability to entertain are invited to enter the contest.

Any type of performance from singing to playing a musical saw, will be considered. Those desiring to enter the contest are asked to leave their names, addresses and phone numbers in the music school office.

Ski Enthusiasts Plan Formation Of Varsity Club

Twenty-five students met in the Eloise Knowles room Wednesday night to discuss formation of a university ski club. Plans were made to elect officers and to initiate a membership drive at the next meeting, December 5.

The skiers will hand organization outlines to Chairman Don Hall, Mullan, Idaho, who will present them to club members for their approval. They made tentative plans to join the Rocky Mountain conference in order to participate in competitive races during winter quarter. They are investigating the possibility of entering both men's and women's ski teams in state intercollegiate meets.

Wilson Needs Aid to Solve Problem

Roy A. Wilson, former professor of geology and present employee of a South American oil company at Barcelona, Venezuela, has requested in a letter to President George Finlay Simmons help in solving a South American botanical problem, Lucille Armsby, presidential secretary, said recently.

The letter, which was referred to Dr. Joseph Kramer, instructor in botany, described the inadequate grazing conditions of the rolling savannas on the coastal regions. It has been the practice of the cattle and land owners to burn the grass in the dry season on the assumption that new grasses growing over the burned areas are better types. However, the burning which has gone on for a century or more has resulted in coarse, unpalatable grass, said Wilson.

Company Faces Grass Problem

Wilson's company has considered importing cattle from the United States for beef and milk. The problem is to replace the hardy but worthless grass that grows in the area with some type of palatable, nourishing grass suitable for grazing.

The war affects South America very little, Wilson asserts. Much oil is going to England. British tankers call at the loading terminal on the coast once or twice a week and always get through safely. Talks with the officers indicate that Great Britain is optimistic, while last June she was very pessimistic.

Venezuela Approves Base

"The recent destroyer deal between England and the States seems to meet with the approval of the Venezuelans. General opinion appears to favor the naval and air base that will be located in Trinidad," Wilson said.

Wilson received his B.A. from the university in 1916 and was professor of geology here in 1918 and 1919, and from 1922 to 1924.

NOTICE

The editorial board of the Law Review, university Law Association publication, will meet in the law school at 1 o'clock today.

NOTICE

Members of Kappa Tau will meet at 7:30 o'clock Monday night in the Eloise Knowles room. Sentinel pictures will be taken.

Bruins to Play U. S. Marines In San Diego

Montana's erratic Grizzlies, out to wind up a see-saw season in a blaze of victory, will arrive in San Diego this afternoon for their tussle with the United States Marines at 9 o'clock (Mountain Standard time) tonight. The fray will be the first in history between the two elevens. The Grizzlies remained over in Las Vegas, Nev., yesterday for a final workout in preparation for the Marine tilt.

A victory over the strong Marines plus a win over Portland university in Portland next week-end would save the season for a Grizzly team which has had its ups and downs. The two wins would give Montana six triumphs with three losses, and as the Silvertips hold victories over their bitterest rivals, Idaho Vandals and Montana State Bobcats, the season could be considered a success.

The Marines have won five straight victories since losing the opener to University of Oregon early in September. The Marines were undefeated in eleven contests last year, so Coach Doug Fessenden's men have their work cut out.

Major Elmer Hall, Marine coach, teaches the San Diegans rough, tough football, with the attack running from single-wing and long punt formations. The Marines run and pass from both formations, but their chief threat is the passing attack. In their game with San Diego State last week, the Marines scored all three of their touchdowns via the airways.

Captain Tom O'Donnell, tackle, and Jack Swarthout, blocking back, have recovered from injuries received in the Vandal fray last week and are scheduled to start the game. Jack Emigh, speedy wingback, who played the Idaho game with a jaw fracture, will probably be in the starting lineup.

Business Ad School Asks Facts on Grads

The School of Business Administration is sending letters to its graduates asking their present locations, positions and other information concerning themselves, Dean R. C. Line said yesterday.

The information will be incorporated into the monthly alumni news letter.

Pharmacists Stage Skit

Russell K. Anderson, Missoula; Laurence Degnan and Bill Woolston, both from Forsyth, gave a vaudeville skit entitled "Campus Kid," and Jack Corcoran, Ryegate, played several piano selections, at the Pharmacy club meeting Wednesday night.

The club will give its annual Pharmacy (Rx) ball January 11, Russell Anderson, president, announced. Two teams will be appointed by the ticket sales committee to compete for prizes, which will be awarded to the team selling the most tickets. Novelty drug capsules will be the program theme, said Vivian Medlin, Butte, program committee chairman. The club voted to get their club recognition pins later in the quarter.

The MONTANA KAIMIN

Established 1898

The name Kaimin (pronounced Ki-men) is derived from the original Selish Indian word, and means "something written" or "a message."

DON'T OVERDO THE BELL RINGING

Too much bell ringing is an annoying thing. We admire the school spirit and the endurance of the husky fellows who tug at the rope of the tower bell to proclaim victory for three or four hours at a time, and we admit that we were pleased as well as amused at first, but as the practice continues, we fear for our peace of mind and shudder at the wrathful curses of the townspeople.

When the Grizzlies defeat the Marines tonight, please spare our ears drums. We hate to be leering old killjoys by asking you to limit your bell ringing to an hour or less, but unless you cease the prolonged clanging, we'll soon be enrolled in another institution for cures for jagged nerves.

Britain may rule the waves but HITLER is the recognized king of the SEIZE.

HE BOWLS WITH EXTRA SPEED AND EXTRA POWER SMOKES CAMELS FOR EXTRA PLEASURE

His "Fireball" made him a bowling champion. Slower burning won Joe Norris to Camel cigarettes

WHAT A MAN in a bowling alley! He was the "boy wonder" a decade ago. Today, with a long list of national titles at his belt, the bowling world still wonders just how he gets such pin-blasting power and such hair-line control... such extra power and extra control!

No question, though, how Joe Norris gets the extras in his cigarette. He turned to the slower-burning brand... Camel... for extra mildness and found several other pleasing extras as well, including extra smoking.

Slower burning... costlier tobaccos—what pleasure they can add to smoking! More mildness and coolness because Camels are free from the irritating effects of too-fast burning. More flavor—because slow burning lets the flavor come through. And along with extra pleasure—extra smoking per pack (see below, right).

R. J. Reynolds Tobacco Co., Winston-Salem, N. C.

THIS IS the "Fireball." Joe Norris (above) uses a two-finger mineralite ball with narrow grip—a quick-breaking hook—throws one of the fastest balls in bowling. But no speed... no fast burning... for Joe in his cigarette. It's always slow-burning Camels. He says: "Camels give me extra mildness. And there's nothing like a Camel for flavor."

EXTRA MILDNESS**EXTRA COOLNESS****EXTRA FLAVOR**

In recent laboratory tests, Camels burned 25% slower than the average of the 15 other of the largest-selling brands tested—slower than any of them. That means, on the average, a smoking plus equal to

5 EXTRA SMOKES PER PACK!

"THOSE EXTRAS IN CAMELS SCORE WITH ME EVERY TIME — ESPECIALLY THE EXTRA MILDNESS AND FLAVOR — CAMEL'S SLOWER WAY OF BURNING GIVES ME A NICE BIT OF EXTRA SMOKING, TOO"

Joe Norris

GET THE "EXTRAS" WITH SLOWER-BURNING CAMELS
THE CIGARETTE OF COSTLIER TOBACCOS
